Stain/Paint Match Confirmation Authorization For Wood

Based on your viewing of samples, you have approved the following custom stain/paint color match:

Formula: _____

CUSTOM COLORS: The sample prepared for you in your home for you to review and approve is a sample that was made on the same species of wood that is on your new windows and/or doors. As with any custom product, once the color is approved, it cannot be modified or changed without incurring additional expense. Any changes after the stain is applied must be done after an "Additional Work Order Form" has been completed. Our representative can help you with that if it becomes necessary. Paint matches are not done in your home and must be completed prior to the commencement of work, or, if paint is to be used, the homeowner will provide the paint materials.

DISCLAIMER: Stain samples are produced to be as accurate as possible. However, actual colors on your new wood windows and doors may vary from these samples slightly. Wood is a natural substance used for windows, doors and trims and as such will display its own unique characteristics. Wood has grains that will absorb stains at different amounts, depending on orientation of the grain, types of woods used and the moisture content of the wood. As a result, variation will occur throughout the wood. Window Finishing Inc. cannot be responsible for the actual degree of variation of stain color that may occur in your windows or doors. In addition, National Standards shall determine the acceptability of the surface finishing, as defined by PDCA P1-04 Standard. Currently, those standards are defined as "when viewed without magnification, under normal lighting, from a normal viewing position at a distance of thirty-nine inches (1 meter). The finish will be smooth to the touch, with no foreign particles in the finish or roughness to the wood."

CUSTOMER AUTHORIZATION: I have read and understand the Stain/Paint Match Confirmation for wood and would like to proceed. I have selected a custom color stain/paint that has been matched to my satisfaction.
